

Cellular PVC decking

Naturally beautiful

Expertly engineered

Reàl Decking by Gossen brings the natural beauty to your home while preserving someone else's. Reàl is made in the USA, so it has the extra benefit of preserving valuable rainforest resources.

## WE PERFORM!

Beauty is Important, Performance of your deck is just as Important.

Gossen's Cellular PVC Decks and Porch boards will not rot, warp, split, fade or mold. Our skid resistant and easy to maintain decking and porch products are guaranteed to keep its great look and performance for a lifetime.

### **"WE PERFORM" qualities include:**

- Made of 100% solid-core cellular PVC
- Will not absorb water making it resistant to rot, mold and stains
- Will not expand, contract, split nor splinter like wood decking
- Deep UV protected to prevent fading
- Extremely hard cellular PVC surface is scratch resistant.
- Textured surface for wet or dry skid resistance
- Easy to maintain with just soap and water- no yearly pressure washing or staining
- Easier to install than wood decking; no predrilling required, no dimpling or splitting

# It's Like Nature. **Evolved**

---

Reàl Decking may look like exotic hardwoods, but it is cellular PVC.

The high performance material won't rot, warp, split, cup or decay. Spills and stains simply wipe away, and maintenance is simple with no need for oil treatments or sealing. With Gossen's premium color technology, Reàl exotic finish will stay rich and beautiful for years to come.

- The beauty of Ipe without the maintenance
- Proven performance and technology
- Genuine look of exotic hardwood
- Exceptional color retention
- Mold, mildew and stain resistant
- Long, sustainable life span

## Build beyond hardwoods

Reàl Decking unites the authentic look of exotic hardwoods with the performance of Gossen cellular PVC. Light-weight cellular PVC makes installation refreshingly easy with no need to pre-drill or finish. Our proven surface technology protects its color without the need for annual oil treatments, while our finishing expertise gives you natural beauty worth preserving. It's the perfect combination of art and science.

Solid Plank

Kerfed Plank

Brazilian Ipe

**1" X 5-1/2"**

---

**LENGTHS 12', 16' AND 20'**

---

**COLOR: BRAZILIAN IPE**

# Why Real

Less maintenance

Real's color stays rich and natural with no sealing or annual oil treatments.

Ease of installation

Real is much lighter weight than Ipe and there's no pre-drilling required.

Cost savings

Even with its added performance, cellular PVC is still a cost savings over exotic hardwoods.

## Gossen's Green Commitment

- Factory waste recycled back into the manufacturing process
- Does not leach harmful chemicals
